

Song of my heart!

Chorus I: Lord, hear this song of my heart
 All what I've done in the past
 You know the end from the start
 But I wanna tell you my part

Sub Chorus : I have no hope everything is dark
 My mind is roaming everywhere - even
 grace at times seems so far away
 I always do what I feel is right
 Even though
 if it should be spoiling my life - every
 day I'm feeling so far from you

Chorus II: My life is so dark - in spite
 I say that I know the light

Stanza I: Many times I felt, I was falling - so
 many times I found myself kneeling
 Sometimes I know I was crying - but
 Then I thought it wasn't worth the trying
 Lord, you know my all
 My body, soul and spirit heart and mind
 Everyday, every night
 Your love is crushing me,
 Can I see or can I feel you,
 in this world you've put me in,

**I can't bear this anymore
I'm close to being too far away
Lord, I'm close to being too far away....**

**SubChous II: You know I question my heart many times
Why do I do what I do even if I know
there is no reason to pretend
You look at me and know my
everything, but even after knowing
don't do anything,
Seeing all you call me your own**

**Chorus III : I think in this world "What am I?"
I learn that I'm just a passer-by.**

**Stanza II: As I was so stuck in dreaming
I heard your voice that was pleading
I was the cause of your crying
But such a one was I had no feeling.
Lord, in your love,
You gave for me yourself a sacrifice
Where can I see, where can I and
Such love you're showing me
Now when I see you, now when I feel you
Only you can stop my tears
I can't leave you anymore - I'm
not scared of anything -
But I'm scared of losing you....**

Sub Chorus III: You said that you will never'

leave me alone, you never ever left
my side - even if I never lived
a life pleasing you,
You said that I will live forever
like you who are ever and ever eternal
I ever since have no need to die...

Sub Chorus IV: You said that you have got a place for me
A place no one's heard about
A place made by no human hands
You said that you have given me a body
with that I can abide in you forever
Forget'n about this dream I'm living in

Sub Chorus V: You said that you have purified
me in your love
Now take me far above
Give me peace more than my
understanding
You said that you will show the
sign with your eye, the coming time to fly
ever since I have no need to cry.
